Warsaw, June 2. *N. S.*

THE King intends to go hence in a day or two for *Joansberg* in *Prussia*, to have an Enterview with the Elector of *Brandenburg*, who will come thither from *Coningsberg*. The Proposals which have been made to this Court for Treating a Peace with the Turks, are still under Consideration; And at the same time, the Preparations for carrying on the War go on with all possible diligence, it not being probable any Treaty can be concluded before the Campagne is over. The King's Forces therefore continue their march towards *Rusland*, and the Saxon and Danish Regiments that served in *Hungary* are also moving that way. Orders have been given for the Artillery designed for the use of our Army, to be sent forthwith to the place of Rendezvous; And a Train of heavy Cannon is expected from *Saxony*, with several Regiments the King has sent for from his Territories in *Germany*. The Affairs of *Lithuania* do now chiefly employ the Care of the Ministers at this Court, and the Accommodation of the Differences in that Dutchy is looked upon to be of such Consequence, that it is believed, the King of *Poland* will go thither in Person after he is returned from *Joansberg*, to Endeavour to reconcile the two Parties of *Sapieha* and *Oginski*, in case it cannot be effected by the Commissioners he has appointed for this purpose.

Vienna, June 4. Their Imperial Majesty's came on Saturday last to their Palace of *La Favonita*, and returned the same evening to *Laxembourg*, where the Court will continue most of the Summer. Mr. *Schreyer*, Secretary to my Lord *Paget* His Majesty of *Great Britain*'s Ambassador at the Ottoman Port, who lately arrived here with some Dispatches relating to the Treaty of Peace proposed to be set on Foot between the Christian Princes and the Turks, is preparing to leave this place in order to his return to *Adrianople*: From whence we hear, That the English Ambassador intends to go with the Sultan into the Field, and it is very probable, the Peace may be treated of in *Hungary*. The Prince of *Lorraine*, Bishop of *Osnabrug*, having received the Investiture of the Imperial Fiefs belonging to the Bishoprick of *Olmutz*, as well as *Osnabrug*, is gone to take Possession of them. Yesterday was held a great Council of War, in which several Resolutions were taken concerning the Campagne, which they propose to open about the end of this month. Above 200 Seamen are lately arrived from *Hambourg*, where they were Listed by the Sieur *d'Assemberg*, who is to Command the Emperor's Fleet on the *Danube*, and several more are shortly expected from that and other Places, who are to serve in the said Fleet, which waits only for its Complement of Men to fall down to *Peter Waradin*. The Artillery designed for the Service of our Army, is sent to *Verismarton*, whither all the Regiments are marching from their Quarters; and care is taken that the Magazines in those Parts be sufficiently Stored with all manner of Provisions for their Subsistence. Our Letters from *Transilvania* say, The Turks continue with great Earnestness to repair *Vypalanka*, being covered by a Body of 2000 Men, with some Cannon, to prevent our Parties insulting their Workmen. Our last Advices from *Adrianople* tell us, The Port had dispatched a Capigi Bassa to the Cham of *Tartary*, with a considerable Sum of Money, and Orders for his joining the Turkish Army this Summer with a greater number of Forces than was at first intended. We hear, the Bassa who is to Conduct the great Convoy designed for *Caminiec*, passed the *Danube* on the 10th of *May* with some Troops at *Karsall*, and was on his march to *Budziack*, where he will be joyned by all the Forces designed for that Service.

Francfort, June 11. All things being ready for the Evacuation of *Rhinfeldt*, it is not doubted but the same was performed yesterday. In the mean while, the Prince of *Baden*, and General *Thungen*, have sent two Officers to the French Governors of *Philipsbourg*, *Fribourg*, and *Brisack*, and the Fort of *Keyl*, to know what time they will fix for delivering up of those Places. The Emperor's Minister, Count *Beymenbourg*, came hither lately from *Mentz*, but returned to that place this Evening, the Elector being expected there this night or to morrow from the Baths at *Embser*. We hear from *Strasbourg*, That the Deputies from the Elector *Palatine* were again come thither to Demand the Rolls and other Papers of State which the French carried away from *Heydelberg*, and are to be restored according to the Treaty of Peace. The Marquis *d'Uxelles* is returned there from visiting the Frontier Places, and the Sieur *de Vauban*, Chief Ingenier, is shortly expected.

Hambourg, June 13. The Forces the King of *Denmark* is sending into the Service of the King of *Poland*, and who came by Sea from *Copenhagen*, landed this day at *Travemonde*, where, after they have refreshed themselves, and are joined by some others that are ordered thither from *Oldenbourg*, they will continue their march to *Saxony*. We hear from *Poland*, That the Animosities in *Lithuania* continue to a great heighth, and that it was believed some of the King's Forces would be sent to that Dutchy, to oblige the two Great Factions to forbear all further Hostilities, and to secure the Quiet of the Country; And that the Queen Dowager of *Poland* was preparing for her Journey to *Rome*, where she intended to continue some time. Our Advices from *Dantzicke* say, The Sieur *Desalleurs*, Envoy from *France* to the Elector of *Brandenbourg*, passing through that Place in his way to *Koningsberg*, two of the Magistrates went to
